

# Animal Observations

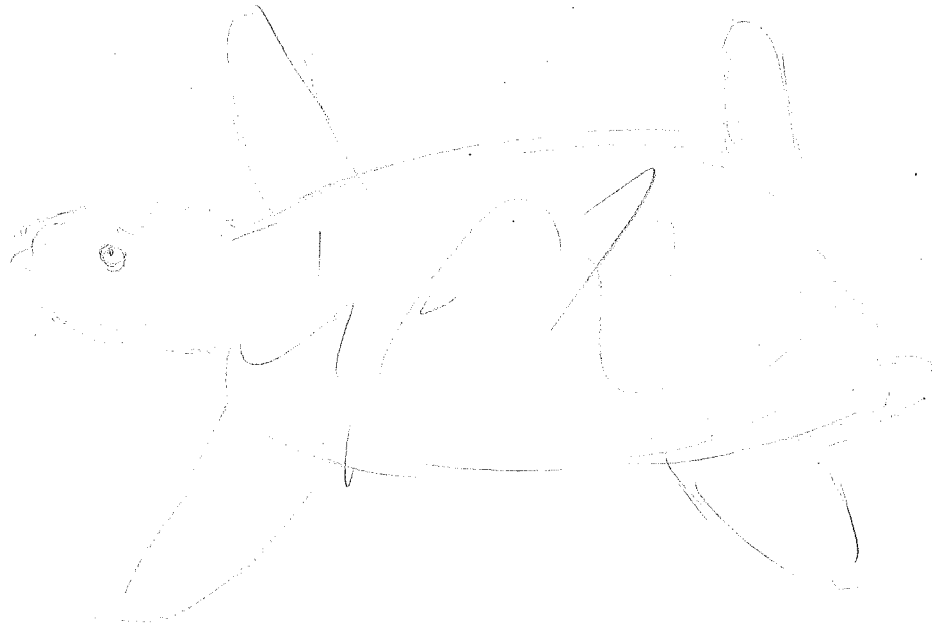

Name: Ailsa

Date: July 11, 2017

Habitat: Tropics (sharks)

Animal: Green Sea Turtle

- it eats lettuce also sea grass and algae
- lets food float and snaps bites out of it
- ~~\_\_\_\_\_~~ - can hold breath about 5min

## Behavior Notes

pretty fastish in lagoons and reefs +  
about 1.5m seagrass beds  
worldwide called green because inside tissue  
is green due to diet
